Russia

Brussels, 23rd September 2019

Concerning: Article 7.3 of the Internal Regulations – RUS Bureau – 2020

Dear Colleagues,

Based on your official request and in accordance with the procedure set out in the Explanatory Memorandum under Article 7.3 of the Internal Regulations, on 17th September 2019 the Management Committee decided to grant your Bureau the approval to issue Green Cards for vehicles registered in Georgia and vehicles registered in Kazakhstan for the year 2020.

Please note that this approval is granted under the conditions that (and remains valid as long as):

- (a) the Bureau of Russia is not under “Monitoring” status; and
- (b) the reinsurance covers of the Bureau of Russia and/or any of its members authorised to issue Green Cards for the above mentioned vehicles extend to this activity (including for false or unauthorised Green Cards, whether guaranteed by the Bureau or by its member(s)).

If, at any time in the course of the period of validity of this approval, these conditions are not or no longer fulfilled, this approval shall automatically terminate as of the date of such non-fulfilment.

By force of obtaining this approval, your Bureau renounces the right to invoke Article 9.2 of the Internal Regulations (non-application of a Bureau's guarantee for a Green Card relating to a vehicle not legally registered in your Bureau's country) for any Green Cards issued, or purported to be issued, under the authority of your Bureau.

Please also note that the following rules apply in relation to the said approval:

1. The approval is granted as of 1st January 2020 and shall remain valid for one calendar year, i.e. until 31st December 2020 inclusive. Any member of your Bureau must be explicitly authorised by the Bureau to issue Green Cards in the framework of this approval, and any such authorised member shall be bound by the same rules. In this respect please also note that **it is the**

responsibility of your Bureau to inform other Bureaux about the insurer(s) authorised to issue Green Cards in the framework of this approval.

2. Green Cards issued by (an) authorised member(s) of the Bureau of Russia in the framework of this approval shall have a maximum validity of one year. The starting date of the validity of such Green Cards shall fall within the period of validity of the approval, i.e. 1st January – 31st December 2020. This means, *inter alia*, that Green Cards cannot be issued during the period of validity of the approval with a deferred starting date that falls outside (after) the period of validity of the approval.
3. The approval is renewable annually. Should your Bureau be willing to maintain the approval for 2021, you should explicitly request a renewal of the approval next year, within deadlines and according to the procedures that will be communicated by the CoB Secretariat in the beginning of 2020. Your Bureau is also required to provide annual statistical data about the number of Green Cards issued and claims incurred in the framework of this approval, again in the timeframes and according to the procedures (templates) that will be communicated by the CoB Secretariat at the same time.

We expect you will undertake all necessary steps to **inform, in due time, the Membership of the Council of Bureaux** about any relevant details in relation to the subject matter (e.g. name(s) and contact details of insurer(s) authorised by your Bureau to issue the Green Cards in question).

Yours sincerely,

Greet Floré
